

Valve Accessories & Controls

## VAC Special Service Positioners... Solutions for your special positioner needs!

### V100 and V200 Nickel (NIC) and Tufram (TUF) Coated

All of the benefits of corrosion resistance coatings, available in pneumatic or electro-pneumatic applications.

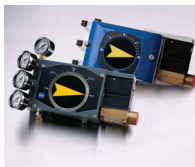

### V200 Extra High Temp and Low Temp

The V200P EHT (-40-325 F) and the V200P LT (-58-185 F) for extreme temperature applications.

### V100 or V200GA Gas Approved

These electro-pneumatic positioners are FM, CSA, and CE approved for use with natural gas.

### V100 or V200 0/10V

This compact 0/10 V transducer makes a simple package for applications where a 0-10 Volt control signal is needed.

VAC Specials are in STOCK for your quick turnaround needs. Call and speak with someone or visit our website for more details about VAC Special Products and Accessories.
