

VALVE ACCESSORIES & CONTROLS

Positioner Training

From Positioners 101 to Digital. All in one class—All in 2 days!

What to Expect:

We offer a unique training experience which combines hands-on experience in our shop and interactive presentations with our technical and sales experts. You are welcome to attend our class whether you are a distributor, OEM, or end user. No matter your role, our class is designed with you in mind. Sessions in the conference room include presentations of our complete product line, discussion of markets, competitors and industry trends, and opportunities for Q&A. In the shop, we practice mounting to rotary and linear actuators and calibrating and troubleshooting our positioners. We are confident you will graduate our training class with a better understanding and greater confidence in our product line.

Class Schedule:

Day 1: 8:00 am-5:00 pm (lunch provided), 6:30 pm (dinner provided)

Day 2: 8:00 am-12:00 pm (lunch provided)

When's the next class?

We offer training classes once every quarter.

These classes fill up fast so contact us to secure your spot today!

How do I register?

Registration is simple. Contact Melissa at melissam@vacaccessories.com, and we will send you a short registration form to fill out. Once we receive your completed registration form, you are considered officially registered for the class.
